ARMSTRONG’S BETTER DETAILING

Auto Armor® & The Protector®

Corrosion & Underbody Protection

A professionally applied system designed to provide long-term corrosion protection for your vehicle’s inner body panels and underbody.

Corrosion Protection

Applied to inner body panels and the undercarriage to help protect against corrosion caused by road salt and salt spray.

- **Surface rust**
- **Rust-through (holes caused by corrosion)**

Sound Shield Protection

Applied to the underbody to help resist wear and dampen sound for a quieter ride.

- **Peeling, chipping, and cracking as the coating dries out**
- **Sound dampening**
